

Thank you for your interest in Intermountain Produce Company!

ABOUT US

Intermountain Produce Company is a wholesale distributor of fresh fruit. We search out fresh, high quality, tree-ripened fruit from Washington and Oregon and distribute it in Montana from our modern Bozeman cold-storage facility.

Intermountain was founded in 1982 by Tim Horton and quickly developed a reputation for having the best, most flavorful fruit on earth! To this day at Intermountain, flavor is still king and finding the best fruit is our biggest thrill! We have some great connections!
